Technical Comments

Paper ID: ICPCSN-995

Paper Title: Image Understanding of GUI Widgets for Test Reuse.

Decision: Accept and Major revision

Review Comments: 2

1. Image Understanding of GUI Widgets for Test Reuse is the presented research work title.

2. Authors are suggested to cite relevant references for the discussion given in the intial sections.

3. Objectives should be limited. Whether the authors accomplished all the objectives in the research work if so it should validated through detailed discussion otherwise objectives should be revised.

4. Proposed model discussion should be improved. how semantic matching has been performed? What are all the techniques incorporated for semantic matching and how the algorithms are selected? all the above queries should be addressed in the discussion.

5. Summarized pseudocode or algorithm should be included with brief discussion.

6. Strong interpretation of proposed model experimentation should be included in the results section

7. Authors are suggested to measure the performance of the proposed model through various metrics and discuss the observations in detail.

8. The discussion given in section 7 should be revised and improved.

9. References should be increased. Authors are suggested to increase the references with recent research works and discuss the observations in detail.
